Experience

IT Manager, Time Warner Cable Media Sales, July 2006 — Present

(This is a continuation of the Comcast position; same job, location, etc., different owning company)

- Build and maintained an extensive intranet site of tools for submitting spots, tracking them from client submission to placement on cable video insertion equipment, and reporting run rates.
- Small website development for short horizon marketing projects, contests, client advertising related events.
- Maintaining a multi-domain marketing website for all Southwest ROC (Regional Operations Center) markets (austinondemand.com, hotxondemand.com, whatsondfw.com, etc., for a total of 16 domains).
- Skills: Microsoft .NET (ASP.Net, VB, C#), Microsoft SQL Server, Oracle 10g, ColdFusion, PHP, MySQL, extensive Javascript and VBScript.

IS Manager, Comcast Spotlight, March 2004 — July 2006

- Built and maintained an extensive intranet site touching almost every area of the business from video production, traffic, sales and sales reporting, engineering and master control.
- Function areas include job tracking, inventory, reporting, video library, and marketing research.

Website Developer, Verix Technology Group, April 2002 – March 2004

- Built and maintained a large number of commercial websites, Linux (LAMP) and Windows (ASP/SQL Server) platforms, Secure payment processes through Paymentech and Mastercard.

Sr Business Analyst, E.W. Blanch, January 1999 – October 2001

- Maintained and extended an insurance industry website and weather warning email list to alert re-insurance clients of potential windstorm damage.

Sr Software Engineer, Raytheon/E-Systems, January 1996 – July 1998

- Built a search engine interface for insurance documents and for medical documents.
- Built an evaluation application for war gaming scenarios.

Manager of Developer Relations, Micrografx, Inc; November 1990 – July 1992

- Responsible for a team of 3 and budget of approximately \$1M per year.
- Managed an ISP program with numerous clients developing applications that worked with the retail drawing applications, including Mobil Refineries and Landis and Gyr.
- Maintained Vendor relations with printer manufacturers such as HP and Tektronix and with other software developers such as Microsoft to foster adoption of the Micrografx file and import formats.
- Provided additional support for the annual Chili Cook-off event at Comdex.

Freelance Consulting, Self-Employed, July 1992 – December 1995, October 2001 – March 2004
